# How do we work?

Gone are the days where you clock in, stay in your cubicle and clock out. Dynamic environments call for adaptable seating that adjusts seamlessly to your workflow and our Wit does exactly that. The mobile, comfortable design is inspired by the following truths we've noticed about how people work:

- You need to be mobile.
- You need to be comfortable.
- You need to be adaptable.

A slimmer, stationary version of the task, our Wit Side is ideal for high-traffic settings like breakrooms and cafeterias. Thanks to its ultra-lightweight frame and identical built-in pull handle, you can swing it around and rearrange spaces easily to accommodate the constant flow of crowded areas.

## PERFORMS WELL UNDER PRESSURE

The slim yet plush dual density foam seat cushion combined with the sloped design of the waterfall front edge help relieve pressure on the legs, promoting circulation and allowing you to sit comfortably for longer periods. So go ahead and take that long lunch. We got you.
